**Additional Information regarding to rtklib - rtkpost**

---

Some hints to perform DGNSS processing with rtklib – rtkpost:

Options:

- Setting 1 => Positioning Mode: DGPS/DGNSS
- Positions => Base Station: RINEX Header Position

After choosing Positioning Mode = DGPS/DGNSS input of the reference data file is possible.

Main page:

- RINEX OBS: Base Station => Choose from file manager
- Change Solution name

Some hints to rtklib - rtkplot:

- Statistics => Choose Edit + Options and check Show Statistics
- Skyplot, DOP, SNR and more => Choose File + Open Nav Data + RINEX Nav file
