

Regulations for assignments:

1. Reports and source codes should be placed in a folder named as <your family name> -- <assignment number>.
2. The folder should be zipped (please do not use rar) and uploaded in ILIAS.
3. Incomplete submissions are not evaluated (marked as 0).
4. Submissions through email are not evaluated (marked as 0).
5. Submissions after the deadline are not evaluated (marked as 0).
6. The deadline for each assignment is typically the second week after distributing that assignment (at 24:00) unless otherwise is stated.
7. Methods, calculations and hypotheses to derive the solutions should be documented in your reports.
8. The quality of your report, e.g., readability, quality of pictures and etcetera) play a role in your assignment evaluation.
9. The course includes maximum six assignments.
10. Assignments can be executed and the corresponding reports can be made and delivered in groups of two or three students.
11. The first assignment is an exception that should be executed in groups of six or seven students.
